

## Add information to multiple pieces

On the page Bulky or special cargo it's now possible to add measurements, weight and nature of goods for several packages at the same time.

Mark the packages you want to change information on. If you wish to change the same information for all packages – mark the check box “Select all”.

The screenshot shows the JETPAK web interface. On the left is a navigation menu with options like Base data, Customer, Booking, Transport, Accounting, Statistics, DHL, Book, Depot, Traffic control, and Manuals. The main area is titled 'Package info' and contains several sections: 'Shipment ID' with a text input and a 'Perform security check' checkbox; 'Internal information' with a large text area; 'Fees' with a table for adding fees; and 'Package' with a table for adding packages. The 'Package' table has columns for 'Pack. weight [Kg]', 'Volume weight [Kg]', 'Package ID', and 'Nature of goods'. There are five rows, each with a checkbox and the value '2.00' in the 'Pack. weight' column. A 'Select all' checkbox is located below the table, circled in red. Other buttons include 'Remove', 'Back', 'Clear', 'Add', 'Save', and 'Transport'. On the right side, there are panels for 'Messages', 'Customer info', 'Shipment info', and 'Information'.

To change the nature of goods for one, several or all packages you do the same way – mark the packages, enter some other content in the field “Nature of goods” and press “Save”.

The screenshot shows the JETPAK web application interface. The main content area is titled "Package info" and contains several sections:

- Shipment ID<sup>1</sup>**: A text input field.
- Internal information**: A large text area.
- Perform security check
- End customer ID**: A text input field.
- Fees**: A table with columns for Fee<sup>2</sup>, Pieces, Price, and Description. An "Add fee" button is present.
- Package**: A section with fields for "Nature of goods<sup>3</sup>" (containing "Pencils"), Weight (kg), L, W, H (cm), Package ID, and Net weight (kg). There are also "Special cargo #1" and "Special cargo #2" dropdown menus.
- Radio buttons for "Add (1) piece" and "Add multiple pieces" with associated "Pieces" and "Total weight" fields. "Clear" and "Add" buttons are also present.
- A table with columns: Pack. weight [Kg], Volume weight [Kg], Package ID, and Nature of goods. The table contains five rows, all with a weight of 2.00 and "Documents" as the nature of goods. The first column of this table has checkboxes, all of which are checked.
- Buttons: "Remove", "Back", "Save", and "Transport".

The sidebar on the left contains navigation options: "?", "Base data", "Customer", "Booking", "Transport", "Accounting", "Statistics", "DHL", "Book", "Depot", "Traffic control", and "Manuals". The right-hand panel contains "Messages", "Customer info" (with account number 425736, customer Softronic Aktiebolag, and partner company Jetpak Sverige AB), "Shipment info" (with total weight 10.0, total volume weight, total fees, and contact number), and "Information" (with a link to "Transport restrictions").

It's also possible to update several packages at the same time with special cargo. Please note that if you are sending ICE it's better to update one package at the time since the field used for Net weight isn't mandatory when you update several packages at the same time.
